COMMERCIAL FLOOD

FusionX Duo Dual-Head Flood

Bright, wide-throw light floods a loading dock, warehouse yard, or building exterior from the FusionX Duo Dual-Head Flood. Two adjustable heads on a slim bracket aim independently for broad coverage from one mounting point, and the low-profile housing mounts flush to walls or eaves without added hardware. The 30W class runs at up to 22W and the 60W class at up to 45W, both at a crisp 4000K — offered with either a motion sensor (MS) for on-demand security light or a photocell (PC) for dusk-to-dawn operation. Efficient, commercial-grade illumination built for continuous exterior duty.
