SECURITY · MOTION

Fortis Motion Security Lights

Cover a driveway, backyard, or side yard with the Fortis Motion Security Lights. Each fixture's independently adjustable heads aim exactly where you need coverage, and a PIR motion sensor triggers bright light the moment something moves. The tough, wet-rated housings mount flush to an eave, garage, or exterior wall in minutes and run night after night with minimal upkeep. The line spans a compact single head up to a wide three-head flood — plus a slim two-head model with an integrated camera and Cloudedge app for monitoring. Real coverage and real security from one mounting point.
