CEILING FAN

Dragonfly 56-in. Smart Ceiling Fan

Keep a bedroom, living room, or covered porch comfortable year-round with the Dragonfly 56-in. Smart Ceiling Fan. Its five reversible wood-look blades move steady, quiet airflow — up to 6,000 CFM — on an efficient DC motor, finished in Matte Champagne for a soft, modern look that suits both indoor and outdoor rooms. The damp-rated build takes on the humidity and temperature swings of an open-air space without missing a beat, and it's Matter-enabled for app and voice control alongside the included remote. An integrated LED adds a warm glow with no bulbs to buy, and a downrod mount — slope-ceiling ready — wires it in at the right height for real airflow.
