LANDSCAPE · FLOOD / SPOT

Still Landscape Flood Light

Wash a tree, façade, or garden wall in warm light with the Still Landscape Flood Light. Its low-profile head tilts and aims a wide, even beam exactly where you want it, from a bed of shrubs to a stretch of siding, while the weatherproof die-cast housing shrugs off rain, sun, and seasons without fading. Wired on a simple 12V low-voltage run and easy to stake or surface-mount, Still turns a flat wall or bare tree into a nighttime feature — durable landscape lighting that makes the yard beautiful past sunset.
