CEILING FAN

# Heron 52-in. Ceiling Fan

Keep a covered porch, sunroom, or humid bath comfortable year-round with the Heron 52-in. Ceiling Fan. Its five blades move steady, even airflow on a quiet DC motor, while an integrated 900-lumen LED adds a warm glow overhead so one fixture handles both cooling and light. The damp-rated build stands up to humidity and covered outdoor exposure, a full-function remote sets speed and light from across the room, and the motor reverses to circulate warm air in winter. Sized to move real air in a mid-size room, in Matte Black or Brushed Nickel.
